DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: on page 11, line 18, "42" should read – 44 - -.

Appropriate correction is required.

Double Patenting

Claims 1-9 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 6,758,720 and claim 1 of US 6,852,001. Although the conflicting claims are not identical, they are not patentably distinct from each other because claim the same breast forms with silicone material within a film layer, adhesive layer and connector between the breast forms.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
