

Declaration from Lehigh University Libraries, Bethlehem, Pennsylvania

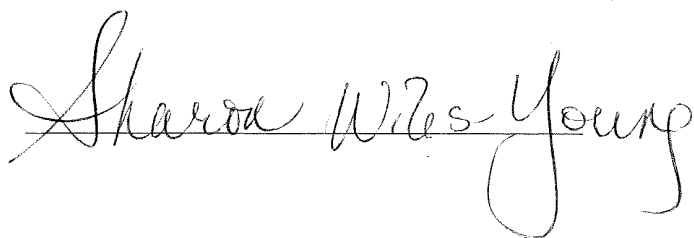

RE: Atomic Layer Deposition of TiN Films by Alternate Supply of Tetrakis(ethylmethylamino)-Titanium and Ammonia by Jae-Sik Min, et al., Japanese Journal of Applied Physics, Part 1: Regular Papers, Short Notes and Review Papers, September 1998, Volume 37, Number 9A, p. 4999

I, Sharon Wiles-Young, declare:

1. I am Director of Library Access Services in Library and Technology Services at Lehigh University Libraries. I manage and have knowledge of the acquisitions, receiving, and cataloging process in the Lehigh University Libraries.
2. The Lehigh University Libraries catalog is available to the general public and searchable by subject, author, and keyword. Though the interface has changed, the catalog has generally been searchable by subject, author, and keyword through its history.
3. The Lehigh University Libraries holds a copy of the Japanese Journal of Applied Physics, Part 1: Regular Papers, Short Notes and Review Papers, September 1998, Volume 37, Number 9A published by the Publication Office of the Japanese Journal of Applied Physics. That publication includes the article Atomic Layer Deposition of TiN Films by Alternate Supply of Tetrakis(ethylmethylamino)-Titanium and Ammonia by Jae-Sik Min, Young-Woong Son, Won-Gu Kang, Soung-Soon Chun, and Sang-Won Kang.
4. When a publication volume was received by the Lehigh University Libraries, it would have been common practice to stamp the received date on one of the front pages of the received materials during the check-in process. The stamp on the cover of the September 1998 issue of the Japanese Journal of Applied Physics indicates that the Library received the publication on November 4, 1998. Based on the indicated received date, this journal would have been made available to the public within 1 or 2 weeks of receipt.

I declare under the penalty of perjury that I understand that willful false statements and the like are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and may jeopardize the validity of the application or any patent issuing thereon. I declare that all statements made of my knowledge are true, and that all statements made on information and belief are believed to be true.
