Company Overview

Mylan Specialty L.P is engaged in the development, manufacture, and marketing of prescription drug products for the treatment of respiratory diseases, life-threatening allergic reactions, and psychiatric disorders. It offers EpiPen and EpiPen Jr auto-injectors for the emergency treatment of life-threatening allergic reactions caused by allergens, exercise, or unknown triggers; and for people who are at increased risk for these reactions. The company also provides PERFOROMIST, an inhalation solution that is used for the long-term treatment of chronic obstructive pulmonary disease, including chronic inflammation of the lungs and emphysema; EMSAM, a skin patch used to treat major depressive dis...
