| Fishing | Performing Arts | Wrestling |
| Football | Politics | Adult Programming |

Scan your favorite types of programs by saying “Scan” plus a category such as “Scan Sitcoms”. In Live TV, this will change channels automatically showing all of the programs currently on matching your request. In the Program Guide, this will display a list of current and future programs matching your request.

You can also simply say a category name to go to the next channel showing that type of program.
