Experience

2005 – Current. **President.** Blasters Ready Jet, Inc. Leader of the technical design team/staff for the development and manufacturing of the Ready Jet Robotic Concrete Removal System. Providing the latest technology in robotic ready mix drum cleaning worldwide.

1999 – Current. **President.** Blasters, Inc. personally founded the certified pre-owned water blaster division and manufacturing of Blasters' Liquidator markings, stripe and rubber removal systems that serve all domestic and international markets through established dealers and manufacturer's representatives.

1994 – 1999. **Vice-President.** Blasters, Inc. Hands-on executive with extensive experience in the water blasting industry, recognized nationally and internationally for solutions to complex water blast applications.

1982—Present. **Understudy.** Blasters, Inc. Trained under Frederick A. Boos, a pioneer in the water blasting industry since 1975. Frederick A. Boos, engineered many systems and patents in the water blasting industry.

1986—1988. **Leadman.** Lead teams for large water blasting projects on a daily basis. Managed crews for highway and airport projects along with planned industrial shutdown/turnarounds for the company. Trained new technicians on how to perform the job accurately and safely along with training on the repair and maintenance of water blast equipment and accessories.

Patent Inventor

Issue Date	Title	Patent No.
8/20/2013	Removal of hardened concrete from ready mixed drum interiors using upwardly directed high pressure water	8510905
10/30/2012	Control system for machine that cleans drums of ready mixed concrete trucks.	8301306
6/16/2009	Removal of hardened concrete from ready mixed drum interiors using upwardly directed high pressure water	7546743
7/7/2009	Apparatus for resurfacing concrete	7556319
11/3/2009	Apparatus for coating and deposit removal inside large diameter tubes	7610924

Education

Jesuit High School – Graduate 1984

Florida State University – Bachelor's Degree graduate with emphasis on Business Economics 1984-1988

Awards

2009 – Ready Jet, US Department of Commerce Export Achievement Award

2007 – Ready Jet, World of Concrete Export Achievement Award

2006 – Hydro demolition, American Shotcrete and Repair Outstanding Project Award

2006 – Hydro demolition, International Concrete Repair Institute Award of Project Excellence

1993 – Hydro demolition, Federal Highway and Florida Department of Transportation Job of the Year Award

Industries Served

Transportation: airports and highways, space program, power plants: fossil and nuclear, military, nuclear submarines, airports, phosphate plants, construction industry, bridge rehabilitation, ship yards.

Professional Affiliations

2000 – Current American Traffic Safety Services Association member

1983 – Current Water Jet Technology Association member

1994 – Current Florida Transportation Builders Association member

2005 – Current National Ready Mix Concrete Association member

In addition to the above memberships, have attended and/or exhibited at all their annual tradeshow including holding live demonstrations. High level networking with other vendors, competitors and attendees staying on the cutting edge of the industry.

2010 – Current Ye Mystic Krewe of Gasparilla executive board member. www.ymkg.com
First Lieutenant of Vessel Jose Gasparilla
