Dear Ximena Solano,

a detailed answer on your question I cannot give, for the thesis came in to our library from a former institute of the Technical University, maybe in the years 1992 or 93. From this date on the item could be viewed or checked out.

Yours sincerely

- **Ihre Mitteilung an uns:** I would like to know when the thesis listed below was first publicly available for viewing or check out at the library? The name of the thesis is "Design of error-control coding schemes for three problems of noisy information transmission, storage and processing" by Willibrordus Johannes van Gils, with signatur number 0890 80095 001 and barcode 30806405. I know that it was published in 1988, but what I need to know is when it was first available for viewing at the library.

Thank you for your help.
