Dear Ximena Solano Suarez,

We would like to give you the following information:

From our meta data it shows that "Design of error-control coding schemes for three problems of noisy information transmission, storage and processing" by Willibrordus Johannes van Gils" was available for loan as from 04/26/1998.

But that's only valid for our library.

Does this answer your question?

With kind regards,

Emmy Golstein

Subject: Question re Design of error-control coding schemes for three problems of noisy information transmission, storage and processing

To whom it may concern.

I would like to know when the thesis listed below was first publicly available for viewing or check out at the library? The name of the thesis is "Design of error-control coding schemes for three problems of noisy information transmission, storage and processing" by Willibrordus Johannes van Gils, with call number CBM 671 B 16. I know that it was published in 1988, but what I need to know is when it was first available for viewing at the library.

Thank you for your help.
