CLAIM CONSTRUCTION ORDER

IFT Exhibit 2026 SMIC, Americas v. Innovative Foundry Technologies LLC

Case 6:19-cv-00719-ADA Document 173 Filed 10/06/20 Page 2 of 2

The Court held a *Markman* hearing on September 18, 2020. During that hearing, the Court provided its final constructions. The Court now enters those claim constructions.

Term	Final Claim Construction
"recessed isolation structure"	"An isolation structure that is recessed, <i>i.e.</i> , whose uppermost surface must be positioned entirely or partially below the substrate's uppermost surface."
'122 and '620 Patents: "adjacent"	Plain and ordinary meaning wherein the plain and ordinary meaning is "immediately next to and/or near"
'126 Patent: The steps of the claims 1 and 12 must be performed in the order written	Steps 1-5 must be performed in that order. Step 5 does not need to precede Step 6 (could be 5-6 or 6-5). Step 6 does not need to precede Step 7 (could be 6-7 or 7-6). Step 5 must precede Step 7.
"the portions of the semiconductor material adjacent the gate structure"	Not indefinite. Plain and ordinary meaning.
"the first and second sidewalls"	Not indefinite. Plain and ordinary meaning.
'226 Patent: "conformal"	"having a uniform¹ thickness and following the contours of the structure below" ¹ – A person of ordinary skill in the art would understand that "uniform" does not mean "perfectly uniform" but rather there is tolerance for small variations in the thickness.

ALAN D ALBRIGHT UNITED STATES DISTRICT JUDGE

SIGNED this 5th day of October, 2020.
