EXTERNAL EMAIL

Mike,

Attached are two design documents covering the functionality described by the '115 patent and the claims below. The XTP 2.0 document [REDACTED] describes some of our earliest designs. A later design is described by the Order and Price Engine (OPI) wiki page. [REDACTED] We are looking for additional documents between these two to show the progression of our designs and implementation. [REDACTED]

[REDACTED]

Thanks,
David
