

IN THE UNITED STATES DISTRICT COURT  
FOR THE DISTRICT OF DELAWARE

RAINDANCE TECHNOLOGIES, INC. and )  
THE UNIVERSITY OF CHICAGO, )

Plaintiffs, )

v. )

10X GENOMICS, INC., )

Defendant. )

C. A. No. 15-152-RGA

**CLAIM CONSTRUCTION ORDER**

The Court has determined that the term “**polymerase chain reaction**” shall be given the following meaning:

“Method of amplifying a target sequence of nucleic acids that involves repeated cycles of DNA replication, wherein 1) strands of DNA are denatured to form single-strand templates; 2) the templates are treated with oligonucleotide primers and a polymerase enzyme is used to extend the primers to produce replicated double-stranded DNA; 3) the replicated DNA then serves as a template for additional replication. The target sequence need not be specifically identified as a target in advance of the reaction.”

Dated: May 30, 2017.

  
The Honorable Richard G. Andrews
