Michael, Drew,

I have attached revisions to the proposed scheduling order, mostly with respect to timing. Given that SDT is asserting 4 patents and up to 170 claims, Ford will need a little more spacing in the schedule, especially for invalidity contentions. I have also included language from Judge Noreika's most recent form scheduling order. Note the question on Section 14. Please let me know a time tomorrow that you are available to go through this to identify/resolve any disputes in advance of the 4/15 deadline for submitting this to the Court.
