in the premier telecommunications engineering show

SCTE Cable-Tec Expo® is the cable telecommunications engineering show of the year. In one cost-effective setting nearly 10,000 attendees annually seize the opportunity to discover and learn first-hand about the latest in cable telecommunications technology, products and services. For more than 30 years the industry has relied on Cable-Tec Expo to provide the most energizing, technical knowledge exchange of the year.

SCTE Cable-Tec Expo® 2014 will be held at:

Colorado Convention Center
700 14th Street
Denver, Colorado 80202

Important Cable-Tec Expo dates

SCTE Cable-Tec Expo® 2014: Monday, Sept. 22 through Thursday, Sept. 25
Exhibition Dates: Tuesday, Sept. 23 through Thursday, Sept. 25
Technical Workshop Dates: Monday, Sept. 22 through Thursday, Sept. 25
Pre-Conference Symposium: Monday, Sept. 22

Attendees

A wide variety of robust educational sessions, hands-on state-of-the-art exhibits and in-depth networking opportunities enable all levels of cable telecommunications technology experts to obtain the essential resources of technical information crucial to their company goals during Cable-Tec Expo.

Executive and mid-level attendees from the industry's top operating companies attend Cable-Tec Expo and hundreds of the industry's most prominent technology companies showcase their services and technologies. 76% of operating attendees represent decision makers & key influencers. Nearly 40% of operating attendees comprise of executive-level to director/vice president positions.

Global View

Attendees from 60 countries rely on Cable-Tec Expo to experience all engineering, all the time. International presence includes attendees from the following countries:

Argentina	Dominican Republic	Jamaica	Singapore
Aruba	Ecuador	Japan	South Korea
Australia	El Salvador	Macedonia	Spain
Austria	England	Mexico	St. Kitts
Belgium	Finland	Netherlands	Sweden
Belize	France	Netherlands Antilles	Switzerland
Bermuda	Germany	Norway	Taiwan
Bolivia	Guadeloupe	Panama	Thailand
Brazil	Guatemala	Paraguay	Trinidad And Tobago
Canada	Honduras	Peru	Turks & Caicos
Chile	Hong Kong	Philippines	United Kingdom
China	India	Poland	Uruguay
Colombia	Ireland	Puerto Rico	Venezuela
Costa Rica	Israel	Russian Federation	Vietnam
Denmark	Italy	Scotland	

Exhibits

The Cable-Tec Expo exhibit hall provides an invaluable learning environment which features “hands-on” instruction from hundreds of the industry’s top technology companies. Exhibitors and attendees alike will discuss various cable telecommunications applications, products and services that technology delivers.

Sessions/Technical Workshops

Don't miss the most energizing, technical knowledge exchange of the year. The industry's leading subject matter experts will provide key informative technology focused on the most critical issues that are on the horizon for the industry.

Educational workshop topics and presenters will be chosen through a call for papers process by the SCTE Cable-Tec Expo® Program Committee, chaired by Tony G. Werner, Executive Vice President and Chief Technology Officer, Comcast Cable. The Call for Papers for Cable-Tec Expo 2014 is closed. Workshop topics, descriptions, and speakers will be announced shortly. 

Networking Events

SCTE Cable-Tec Expo provides a variety of opportunities to confer with your colleagues while at the cable telecommunications engineering show of the year. Amidst energizing days full of learning, exchanging knowledge, and exploring technology exhibits, network with new and familiar industry colleagues at the multitude of breakfast, evening, and live cable challenge events Cable-Tec Expo has to offer.

About SCTE

Cable-Tec Expo is owned and produced by the Society of Cable Telecommunications Engineers (SCTE). SCTE is proud to serve as the technical and applied science leader for the cable telecommunications industry. Since its beginning in 1969, the Society has been dedicated to providing meaningful resources and programs for its members and the industry.

From industry-wide initiatives to create more efficient operations to technical training programs on the latest technologies to job aids to assist field personnel in their everyday responsibilities, SCTE has programs and benefits for every professional level in the industry. The Society's "Boots to Suits" philosophy is designed to not only enhance the careers of technical employees throughout the network, but also provide operators with a well-trained workforce that, ultimately, means a more efficient system, economic benefits and an improved customer experience.

SCTE members have access to a wide array of technical benefits that add value to their career and organization. If you are a nonmember, [please visit the Membership page](#) to discover how SCTE can benefit your career and how you can begin to advance in your career. If you are already a member, thank you for your support. Stay active in SCTE and take advantage of the numerous benefits available to you.
