| 11/20/2017 | 419                 | ORAL ORDER: To demonstrate the patentees submission of new claims, Defendants cite to D.I. 312-8, Exh. H at A168-A171. However, this supplemental amendment appears to merely correct typographical errors in Claims 46-53. According to records in the USPTOs Public PAIR, the patentee originally submitted these claims on 12-17-2009 in response to a final rejection. The court does not see 12-17-2009 amendment in the record, and requests a joint letter from the parties as to whether the 12-17-2009 amendment can or cannot be used to demonstrate that the patentee amended the claims. | 05/17/2019 | 1158                 | ORAL ORDER: The parties have submitted 249 pages of deposition designations, some of which are disputed. (D.I. <a href="#">+156</a> ). They do not explain why they have filed these, and I do not recall having discussed doing this with the parties either. I assume they are relying upon the pretrial order. (D.I. <a href="#">+126</a> at para. 32). If the parties are trying to tell me they want me to resolve these disputes, which can only be understood (if at all) from an elaborate system of color coding and cross referencing, they are sadly mistaken in thinking that what they have submitted is sufficient. For any disputed deposition designation the parties want me to resolve, the party objecting needs to submit by May 18 at 8 a.m. a letter setting out the disputed designation with a succinct explanation of the objection (in English). The party proposing the testimony be admitted needs to submit a responsive letter no later than May 19 at 8 a.m. Any objections that are not briefed are waived. Ordered by Judge Richard G. 10/15/2020 1373 ORAL ORDER: Defendant is requested to respond to Plaintiffs letter (D.I. 1371 ) including the following information: the number of invalidity defenses it has; for each such defense, the specific basis for each different ground it is asserting; and, if the number of such grounds and defenses is eighteen or some similar number, why it cannot now reduce them now to a reasonable number. Further, Defendant is requested to identify which of those grounds it intends to move for summary judgment on. Ordered by Judge Richard G. Andrews on 10/15/2020. (nms) (Entered: 10/15/2020)

10/16/2020 1376 STIPULATION TO EXTEND TIME for the parties to file dispositive and Daubert motions to 10/20/2020 - filed by TQ Delta LLC. (Farnan, Brian) (Entered: 10/16/2020)

10/19/2020 1377 ORAL ORDER: Plaintiff asserts two claims. (D.I. 1371 ). By my count, Defendant is asserting twenty-four invalidity defenses. (D.I. 1375 ). There is overlap, but it is ridiculous to think that Plaintiff can address them all or even any meaningful subset of them in any reasonable amount of summary judgment briefing. Defendant, by contrast, is asserting that there are two theories under which it should be granted summary judgment of invalidity. (Id.). To boot, Plaintiff makes its request for more pages on the eve of briefing, but all more pages is going to do is create more work without advancing the status of the invalidity case, as it is inconceivable to me that I could do anything more than, at most, rule against Defendants weaker invalidity defenses. I think Defendant is being plainly unreasonable in maintaining so many invalidity defenses. But as Defendant argues, telling Defendant to drop most of its invalidity defenses on short notice is not really a sound plan. Thus, I postpone all invalidity briefing by both sides until ten days after Defendant reduces, if it so chooses, its invalidity defenses to no more than six. Absent such reduction, I will not entertain any summary judgment motions relating to invalidity. Ordered by Judge Richard G. Andrews on 10/19/2020. (nms) (Entered: 10/19/2020)
