FINAL CLAIM CONSTRUCTIONS OF THE COURT

The Court provided preliminary claim constructions on September 29, 2022 for U.S. Patent Nos. 8,322,881 (“the ’881 Patent”), 9,699,854 (“the ’854 Patent”), 8,721,114 (“the ’114 Patent”), and 9,049,753 (“the ’753 Patent”). The Court held a claim construction hearing on September 30, 2022, in which the Court heard argument on the following claim terms: (1) “a pair of integral multi-faceted side walls that extend from opposite sides of the base member at an angle”; (2) “the first and second multi-faceted side walls extend away from the lighting strip at an angle”; (3) “a first [second] reflector extending from the central body adjacent to the first [second] group of LEDs for directing light from the first [second] group of LEDs in the illumination direction”; (4) “first heat dissipating mechanism for allowing heat to dissipate through a central portion of the central body”; and (5) “a communication component positioned between the power supply device and the light source.” ECF No. 72. After careful consideration of the parties’ briefs, oral argument, and the applicable law, the Court enters its final constructions for each term as shown below.
