Disclaimer:

The services you receive are not a substitute for normal medical care. Hypnosis is not a cure for all of life's problems. The most accurate way to define hypnosis is to call it guided meditation. It can be used to manage pain, quit smoking, release weight, reduce stress or anxiety, overcome phobias and fears, manage sleep disorders, and much more.

By my signature below, I, as the client, am signifying that I am willing to accept the hypnotherapy offered me for the purpose of self-improvement. I understand the services I receive are not a substitute for normal medical care and am hereby advised to discuss medical services with my physician. I agree to accept full responsibility for my choices and experiences, and release Rebekka Putnam from all liability for such. I agree to have my session audio recorded when applicable, and understand I will receive a copy.
