

# Father And Son - Cat Stevens

G                      D                      C                      Am7  
 It's not time to make a change, just relax, take it easy

G                                      Em  
 you're still young, that's your fault,

Am                                      D  
 there's so much you have to know

G                      D                      C                      Am7  
 Find a girl, settle down, if you want, you can marry

G                      Em                      Am                      D  
 Look at me, I am old, but I'm happy

G                                      D                      C                                      Am7  
 I was once like you are now, and I know that's it's not easy

G                                      Em                                      Am                      D  
 to be calm when you've found something going on

G                                      D  
 But take your time, think a lot,

C                                      Am7  
 think of everything you've got

G                                      Em  
 for you will still be here tomorrow,

D                      G - Am7/G      G - Am7/G  
 but your dreams may not

G                      Bm  
 How can I try to explain,

C                                      Am7  
 when I do he turns away again

G                                      Em                                      Am                      D  
 It's always been the same, same old story.

G                                      Bm                                      C                                      Am7  
 From the moment I could talk, I was ordered to listen

G                  Em                  D                  G  
now there's a way and I know that I have to go away.  
          D          C          G          G - Am7/G          G - Am7/G  
I know I have to go
