# Why I'm Different from Other Speakers

My story is fully transparent and well documented.

Strategies that I teach empowered me through struggle. We all face struggle in life, but we don't all overcome. We can learn strategies from the life experiences of others.

In my case, struggle resulted from bad decisions I made during the recklessness of youth. Success came from strategies that I teach!

- » When I was 20, I broke the law.
- » When I was 23, authorities locked me in prison.
- » While serving multiple decades in prison, I learned strategies to succeed.

Through products and live events, I teach strategies that allowed me to accomplish the following goals while in struggle:

- » Earn academic credentials
- » Become a published author
- » Build a strong support network
- » Earn financial resources
- » Build a personal brand and a positive reputation
- » Build strong relationships and a loving marriage

# What Will Your Team Learn?

Through products and services that I create, people and teams learn:

- » How to establish value categories
- » How to set clear goals that define success
- » How to develop the right attitude
- » How to set aspirations that lead to sustainable strategies
- » How to take incremental action steps
- » How to build accountability metrics
- » How to become aware and create opportunities
- » How to celebrate achievements
- » How to express appreciation
- » How to live authentically

Let me design and build a custom program for your team. I guarantee that the presentation will inspire and teach through a combination of lectures and interactive workshops over the following periods:
