In Danish 1B – Danish 2 - students will further develop their basic communicative competence in all four foreign language skills (speaking, listening, reading and writing) within a cultural context.

The textbook for the course will be *Sådan 2 – begynderdansk for udlændinge* by Helleland and Hansen. It is available on the Cal course website bCourses – where assignments, class information, etc., also will be posted.

A great deal of emphasis is placed on active class participation, so ACTIVE involvement in in-class work is very important. In-class work consists of pair-work, group tasks, and small presentations. Homework consists of on-line exercises and traditional written assignments. The midterm has a written component, the final a written and oral component.

The midterm will be scheduled in-class in the week of March 13-17 and the final will be scheduled in the week of May 8-13. For non-Cal students this is in their spring term and will be assigned so not to cause class/scheduling problems for those students. Exams are proctored for distance students via Skype or such other system.

**Course grade:**

Class participation	20%
Homework	20%
Midterm	20%
Written final	20%
Oral Final	20%
