## WORK EXPERIENCE

**Freelance** | Driggs, ID | [agarbarino.com](http://agarbarino.com)

Programmer and Web Designer (December 2016 - current)

- Adding specific functionality to Wordpress sites with custom jQuery/- Javascript. Ex: custom plugins or scrolling effects.
- Problem solving errors or bugs on websites.
- Building Wordpress and Webflow sites from start to finish.
- Logo Design.

**Bike Monkey** | Santa Rosa, CA | [www.bikemonkey.net](http://www.bikemonkey.net)

Programmer and Web Designer (December 2013 - current)

- Working closely with the president of Bike Monkey to re-engineer and program the company's custom scoring software.
- Collaborate with clients to design, program or build their website.
- Build and program custom registration forms for Bike Monkey events and client events using jQuery, JavaScript, Google Scripts and custom CSS.
- Constant communication with a close-knit team. From events to design work, we are a small team tasked with a large mission and limited budget. Meetings, consensus building, and teamwork are essential in daily operations.
