

100% Wild-Caught Fish Oil

- 939 mg of omega-3s per serving
- Supports brain function, heart and cognitive health
- Purity tested and screened for over 200 contaminants

Omega-3 Plus delivers 8 essential omega-3s in a clinically studied, ultra-pure fish oil formula. Each serving supports heart health, cognitive health and brain function. Now with certified sustainable oils, tested for over 200 contaminants for unmatched purity.

- Premium, 100% pure fish oil sourced from anchovies, mackerel, salmon, sardines, and tuna.
- Potency guaranteed. Delivers 939 mg of omega-3 fatty acids in each 3 softgel serving.
- Each serving provides the total omega-3 fatty acids equivalent of approximately one serving of fatty fish.
- Screened for over 200 contaminants, including PCBs, pesticides, and toxic heavy metals such as mercury and lead, and meets or exceeds even the most rigorous global safety standards.
- Standardized amounts of omega-3s in a 3 softgel serving provide:
 - 460 mg EPA
 - 480 mg DHA
- Proprietary “Molecular Differentiation” Process – an advanced technology that selectively enhances beneficial nutrient molecules while minimizing or removing unwanted compounds, ensuring exceptional potency, purity, and consistency.
- 100% wild-caught fish oil, sustainably sourced and certified by globally recognized entities known for protecting marine environments.
- GMO Free

The Power of Omega-3s

Decades of research confirm that omega-3 fatty acids play a crucial role in overall health, benefiting the heart, brain, and more in healthy adults. While in children up to 12 years of age, omega-3s help support development of the brain and eyes. Omega-3s are essential components of cell membranes, which support the maintenance of good health.

The most extensively studied omega-3s, EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid), are well-known for their role in cardiovascular and brain health. However, research continues to reveal the benefits of other omega-3s, highlighting their importance for comprehensive human nutrition.

The Challenge: Declining Omega-3 Levels in Seafood

Fatty fish—such as mackerel, anchovy, and salmon—are the richest natural sources of omega-3s. However, overfishing and environmental changes have significantly impacted the sustainability of wild fish populations, including salmon and tuna. As a result, not only is the global fish supply dwindling, but the levels of critical omega-3s in these fish are decreasing, making it harder to get enough through diet alone.

Neolife’s Commitment to Sustainability

Neolife is on the forefront of global sustainability. Omega-3 Plus is formulated using oil from 100% sustainably sourced fish, using oils that have been certified by trusted third-party organizations, ensuring purity, potency, and environmental responsibility.

How Omega-3s Support Your Health

Omega-3 fatty acids have been shown to support:

- Heart and cardiovascular health
- Normal brain and cognitive function

Did you know? Most adults fall short of the recommended 8 ounces of fatty fish per week. Additionally, some fish should be limited or avoided due to high mercury contamination levels.

Omega-3 supplementation is an effective way to ensure consistent intake of these essential fatty acids, supporting lifelong health.

SUGGESTED USE: Adults take 3 capsules daily.

Each serving of Omega-3 Plus provides 8 members of the family of omega-3 fatty acids naturally involved in human nutrition. Natural fish oil is derived from health screened, disease free fish selected for human consumption and is confirmed free of pesticides, herbicides and toxic heavy metals. Made with **Neolife's exclusive UHPO3 concentrate** including EPA and DHA fatty acids, it helps support cardiovascular and cognitive health.

Medicinal ingredients: Each capsule contains:

Fish oil concentrate - Salmon (*Salmonidae*) plus Mackerel and Tuna (*Scobridae*), Sardines (*Clupeidae*) and Anchovies (*Engraulidae*) 700 mg
DHA (Docosahexaenoic Acid) 160 mg
EPA (Eicosapentaenoic Acid) 153 mg

Non-medicinal ingredients: Gelatin, glycerine, water and mixed tocopherol concentrate.

Safety seal under the cap for protection, do not use if safety seal is missing or broken.

Store in a cool, dry place, away from direct sunlight.

#0125

POSOLOGIE SUGGÉRÉE : Adultes prendre 3 capsules par jour.

Chaque portion d'Omega-3 Plus fournit 8 membres de la famille des acides gras oméga-3 naturellement impliqués dans la nutrition humaine. L'huile de poisson naturelle est dérivée de poissons sains et exempts de maladies, sélectionnés pour la consommation humaine et confirmés sans pesticides, herbicides et métaux lourds toxiques. Fabriqué avec le **concentré exclusif à Neolife UHPO3** y compris les acides gras EPA et DHA, ce produit permet de soutenir la santé cardiovasculaire et cognitive.

Ingédients médicinaux : Chaque capsule contient :

Concentré d'huile de poisson - Saumon (*Salmonidae*) plus maquereau et thon (*Scobridae*), de sardines (*Clupeidae*) et d'anchois (*Engraulidae*) 700 mg
DHA (Acide Docosahexanoïque) 160 mg
EPA (Acide Lecosapentanoïque) 153 mg

Ingédients non médicinaux : Gélatine, glycérine, eau et mélange de concentré de tocophérol.

Sceau de sécurité sous le bouchon pour protection, ne pas utiliser si le sceau de sécurité est manquant ou brisé.

Conserver dans un endroit frais et sec, à l'abri de la lumière directe du soleil.
