HOME CARE

SUPER GRO's special formula reduces water surface tension, increases soil penetration and reduces water loss due to runoff and evaporation. SUPER GRO also enhances the benefits of plant foods and is suitable for use on all indoor and outdoor vegetation.

Directions for use:

Fill container with water, add 1ml (approximately 20 drops) SUPER GRO per 1 litre of water and agitate gently.

Precautions:

Store in tightly closed container at room temperature away from direct sunlight. Avoid contact with eyes. Rinse hands and skin immediately after use.

KEEP OUT OF REACH OF CHILDREN.

Ingredients:

Ethoxylated Alkylphenol, Polysiloxane.

Also available in: 1 and 5 litre sizes.

SUPER GRO's special formula reduces water surface tension, increases soil penetration and reduces water loss due to runoff and evaporation.

The result is that SUPER GRO allows your plants to make better use of the water you provide them, by penetrating to the root system. SUPER GRO also enhances the benefits of plant foods.

Suggested uses as a wetting agent and soil penetrant. Suitable for use on all indoor and outdoor vegetation.
