

Many who consider themselves active or are on the journey to becoming more fit, choose to do so with a goal or vision in mind. Whether it's to be more toned, have more energy or get physically stronger, a well-functioning metabolism is key to efficient muscle building and recovery.

Exclusive NeoLife SPORT Bio-Tone provides specific free-form amino acids and lipotropic factors to support muscle retention, lipid mobilization, lean tissue development, and overall body tissue toning. These nutrients also support efficient metabolism and the production of nitric oxide, which supports the body's metabolic processes by relaxing blood vessels and supporting blood flow.\*

Bio-Tone's combination of amino acids is involved in the body's metabolic processes including lean tissue development and lipid mobilization, and our added Special Factors Blend with lipotropic factors choline and inositol helps balance lipid utilization.\*

#3280 – 120 Tablets

## Support for Recovery and Metabolism with Amino Acids

Certain nutrients help support lipid mobilization and lean muscle retention.\*

- Creating specific amino acid ratios in the bloodstream may support the body's ability to biosynthesize important neurochemicals involved in healthy metabolism.\*

## Our Solution: NeoLife SPORT Bio-Tone

**100% natural free-form amino acids** include L-arginine, L-ornithine, and L-tyrosine.

- **Supports muscle retention and lipid mobilization.** Amino acids support lean tissue development while lipotropic factors aid mobilization and utilization of fats.\*
- **Designed to work while you sleep.** Taken three hours after your last meal and before bedtime, Bio-Tone allows for increases in blood levels of specific amino acids in the absence of competing amino acids.
- **Supports restful sleep** by providing calcium to help relax the nervous system.\*
- **May help you get more out of your workout.**

**SUGGESTED USE:** 4 tablets in the evening at bed time. For best results, take on an empty stomach (approximately 3 hours after a meal).

## Supplement Facts

Serving Size: 4 Tablets  
Servings Per Container: 30

	Amount Per Serving
L-arginine hydrochloride	900 mg †
L-ornithine hydrochloride	440 mg †
L-tyrosine	300 mg †
<b>Special Factors Blend</b>	420 mg †
Dicalcium phosphate; Inositol; Choline bitartrate.	

† Daily Value not established

**OTHER INGREDIENTS:** Hydroxypropyl methylcellulose, stearic acid, magnesium stearate, silicon dioxide and glycerin.

Nutrients important for efficient metabolism and the production of nitric oxide, which supports the body's metabolic processes by relaxing blood vessels & supporting blood flow.\*

Bio-Tone's combination of amino acids is involved in the body's metabolic processes (including fat mobilization) and our added Special Factors Blend with lipotropic factors choline and inositol helps balance fat utilization.\*

Store in a cool, dry place, away from direct sunlight.

Packaged with safety seal.

NeoLife products use only GMO-free ingredients.

Muchos de los que se consideran activos o están en el proceso para ponerse más en forma, optan por hacerlo con una meta o visión en mente. Ya sea que deseen ponerse más tonificados, tener más energía, o ponerse físicamente más fuerte, un metabolismo que funcione bien, es clave para la construcción de músculo y la recuperación eficiente.

El exclusivo NeoLife SPORT Bio-Tone proporciona los aminoácidos de forma libre específicos y factores lipotrópicos para apoyar la retención muscular, movilización de lípidos, el desarrollo de tejido magro, y el tono general de los tejidos del cuerpo. Estos nutrientes también apoyan el metabolismo eficiente y la producción de óxido nítrico, que apoya los procesos metabólicos del cuerpo mediante la relajación de los vasos sanguíneos y apoyando el flujo sanguíneo.\*

La combinación de aminoácidos en Bio-Tone está involucrada en los procesos metabólicos del cuerpo, incluyendo el desarrollo de tejido magro y la movilización de lípidos, y nuestra Mezcla de Factores Especiales añadidos con los factores lipotrópicos colina e inositol que ayudan a equilibrar la utilización de los lípidos.\*

NeoLife Scientific Advisory Board

## Apoya la Recuperación y el Metabolismo con Aminoácidos

- Ciertos nutrientes ayudan a apoyar la movilización de lípidos y la retención muscular magra.\*
- La creación de relaciones específicas de aminoácidos en el torrente sanguíneo puede apoyar la capacidad del cuerpo para biosintetizar importantes neuroquímicos implicados en el metabolismo saludable.\*

## Nuestra Solución: NeoLife SPORT Bio-Tone

- **Aminoácidos de forma libre 100% naturales** que incluyen L-arginina, L-ornitina y L-tirosina.
- **Apoya la retención muscular y la movilización de lípidos.** Los aminoácidos apoyan el desarrollo de tejido magro, mientras que los factores lipotrópicos ayudan a la movilización y la utilización de las grasas.\*
- **Diseñado para trabajar mientras duerme.** Tomado tres horas después de la última comida y antes de acostarse, Bio-Tone permite el aumento de aminoácidos específicos en los niveles sanguíneos en la ausencia de competencia en los aminoácidos.
- **Soporta el sueño reparador,** proporcionando el calcio para ayudar a relajar el sistema nervioso.\*
- **Puede ayudar a sacar más provecho de su entrenamiento.**

**SUGGESTED USE:** 4 tablets in the evening at bed time.  
For best results, take on an empty stomach (approximately 3 hours after a meal).
