

CHELATED CAL-MAG[®] WITH 1,000 IU VITAMIN D

Osteoporosis and low bone mass are a major health issue for more than 50 million Americans. By 2020, half of all North Americans over 50 years are projected to be at risk of osteoporosis-related fractures. Despite the fact that we consume more dairy products and calcium than any other population in the world, we still have one of the highest rates of this debilitating disease. National Health and Nutrition Examination Survey (NHANES) data shows that large percentages of North Americans fail to meet the recommendations for optimal calcium, magnesium and vitamin D intake. Calcium is critical for the development and maintenance of strong bones and teeth, but emerging science shows that we need more than just calcium to optimize bone health, and the benefits of calcium, magnesium and vitamin D go beyond just bone health.*

#3404, 150 Tablets

Why Calcium, Magnesium, and Vitamin D?

- Research shows that adequate calcium and vitamin D as part of a healthy diet, along with physical activity, may reduce the risk of osteoporosis in later life.
- Magnesium helps build strong bones and stimulates calcium uptake.
- Calcium and magnesium, necessary for strong bones and teeth, are also critical for cardiovascular health, normal blood pressure, nerve and muscle function, reduction of symptoms of PMS and many enzyme reactions.*
- Vitamin D promotes calcium absorption, and has also been shown to support breast, bone, heart and immune health in recent research.*
- Daily supplementation of calcium and vitamin D combined may reduce the risk of bone fractures in all adults, regardless of age or gender.

Our Solution: Chelated Cal-Mag with 1,000 IU Vitamin D

- **Supports stronger bones and more.** Perfect blend of chelated calcium and magnesium with high potency vitamin D₃, to support a broad range of health benefits.
- **Proprietary double amino acid chelation** for fast dissolution and maximum absorption of minerals, calcium and magnesium. Prevents irritation to stomach and intestines.
- **Preferred 2:1 ratio** of calcium to magnesium.
- **High potency and bioavailability** with 1,000 IU of readily absorbable and highly bioavailable vitamin D₃.
- **Easy to swallow** coated tablets.
- **Pure & natural.** Pharmaceutically pure, seashell sourced calcium.

SUGGESTED USE: 3 tablets daily with meals.

Supplement Facts		
Serving Size: 3 Tablets Servings Per Container: 50		
Amount Per Serving		% Daily Value
Vitamin D ₃ (as cholecalciferol)	25 mcg (1000 IU)	130%
Calcium (as calcium glycinate)	300 mg	25%
Magnesium (as magnesium glycinate)	150 mg	35%

OTHER INGREDIENTS: Powdered cellulose, microcrystalline cellulose, silicon dioxide, magnesium stearate, food glaze, magnesium silicate, sodium croscarmellose and carmine.
