

GARLIC ALLIUM COMPLEX

Numerous scientific studies link consumption of allium vegetables—garlic, onions, chives, leeks, etc.—to lower risks of cardiovascular disease, cancer, and infection. A huge family of sulfur compounds is responsible for the pungent aroma and health benefits of Allium vegetables. NeoLife's Garlic Allium Complex is a state-of-the-art, whole-food supplement delivering standardized amounts of allicin, the key health-promoting sulfur compound in garlic, plus other beneficial allium nutrients. Our Targeted Delivery Technology insures that bioactive allicin reaches the intestines, where it delivers optimal benefit.*

Why Garlic and Other Allium Vegetables?

- Allium vegetables (garlic, onions, chives, leeks, etc.) have been used **worldwide for thousands of years as foods, spices, and folk medicines.**
- Scientific studies show that allium vegetables **support cardiovascular health, lower the risk of certain cancers (especially gastrointestinal), and inhibit harmful microbes.**

Our Solution: Garlic Allium Complex

- **Broad-spectrum, whole-food supplementation.** Garlic Allium Complex features powders and extracts from a variety of allium vegetables — garlic, onion, chive, and leek — linked in numerous research studies to good health, and assures your daily intake of diverse, beneficial nutrients from the allium "family."*
- **Unique process to protect natural enzymes.** The enzyme alliinase is required for the formation of allicin, the critical sulfur compound responsible for many of garlic's health benefits. NeoLife's special technology protects alliinase from destruction by stomach acid.

SUGGESTED USE: 2 tablets daily.
To assure breath freshness, do NOT chew tablets.

Supplement Facts	
Serving Size: 2 Tablets	Servings Per Container: 30
Amount Per Serving	
Allium Blend	490 mg †
Garlic Extract (<i>Allium sativum</i>) (bulb); Onion Extract (<i>Allium cepa</i>) (bulb); Leek Powder (<i>Allium porrum</i>) (plant); Chive Extract (<i>Allium schoenoprasum</i>) (leaf).	
† Daily Value not established	

OTHER INGREDIENTS: Microcrystalline cellulose, stearic acid, ethyl cellulose, sodium alginate, silicon dioxide, rosemary extract, titanium dioxide, food glaze, medium chain triglycerides, oleic acid and food glaze wax.

Contains soy.

- **Guaranteed allicin content.** Each serving provides 4,200 mcg of active allicin from high-yield garlic extracts. Research studies show that this amount — equivalent to that found in one clove of fresh garlic — effectively promotes health.*
- **Nutrient family approach.** Includes not only allicin, but also other bioactive compounds (for example, oil-soluble substances from fresh garlic and onion), which exist naturally in allium vegetables and work together in different ways to benefit health.*
- **Targeted Delivery Technology.** Enteric coating maximizes the product's stability and absorption and insures the formation of active allicin in the intestines. As a result, Garlic Allium Complex does not cause repeating or garlic breath!*
- **Contains rosemary,** a potent antioxidant herb which helps protect the tablet contents.
- **Convenient.** Provides an easy way to reap the benefits of allium vegetables without having to eat a clove of fresh raw garlic every day.

Garlic phytonutrients help to retain healthy blood pressure and cholesterol levels, support healthy immune responses, and promote normal cell growth and renewal (especially in the gastrointestinal tract).*

Garlic Allium Complex includes the whole food garlic components, alliin and alliinase. Our exclusive Targeted Delivery Technology ensures these key components are delivered to the digestive tract, where they react together to produce over 4,200 mcg of fresh, active allicin ready for absorption. Allium vegetables provide allicin equivalent to a full clove of garlic, 10x extracts of garlic and onion, S-allyl cysteine, and a complete lipid profile of garlic and onion oleoresins.

Store in a cool, dry place, away from direct sunlight.

GARLIC ALLIUM COMPLEX

Numerosos estudios científicos relacionan el consumo de las verduras aliáceas—ajo, cebollas, cebollinos, puerros, etc.—con la disminución de los riesgos de enfermedades cardiovasculares, el cáncer y las infecciones. Una gran familia de compuestos de azufre es responsable de los aromas picantes y de los beneficios de salud de las verduras aliáceas. El Garlic Allium Complex de NeoLife es el mejor suplemento de alimentos integrales que entrega cantidades estandarizadas de alicina, el compuesto de azufre clave en el ajo que promueve la salud, además de otros nutrientes beneficiosos aliáceos. Nuestra Tecnología de Entrega Dirigida asegura que la alicina bioactiva llegue a los intestinos, donde entrega un beneficio óptimo.*

¿Por qué el Ajo y otras Verduras Aliáceas?

- Los vegetales del género Aliáceo (ajo, cebolla, cebollino, puerro, etc.) se han utilizado en todo el mundo desde hace miles de años como alimentos, especias y remedios tradicionales.
- Los estudios científicos demuestran que las verduras del género Aliáceo apoyan la salud cardiovascular, reducen el riesgo de padecer ciertos tipos de cáncer (especialmente gastrointestinal), e inhiben microbios perjudiciales.

Nuestra Solución: Garlic Allium Complex

- Suplemento dietético de amplio espectro, procedente de alimentos completos. Garlic Allium Complex cuenta con polvos y extractos de una gran variedad de vegetales del género Aliáceo, como el ajo, la cebolla, el cebollino y el puerro, vinculados a numerosos estudios de investigación para la buena salud, y asegura tu ingesta diaria de diversos nutrientes beneficiosos de la "familia" Aliácea.*
- Proceso único para proteger las enzimas naturales. La enzima alinasa es necesaria para la formación de alicina, el compuesto de azufre esencial responsable de muchos de los beneficios para la salud del ajo. La tecnología especial NeoLife protege la alinasa de ser destruida por el ácido estomacal.

- Contenido garantizado de alicina. Cada porción proporciona 4,200 mcg de alicina activa procedente de extractos de ajo de alto rendimiento. Estudios de investigación muestran que esta cantidad, equivalente a la que se encuentra en un diente de ajo fresco, promueve la salud eficazmente.*
- Enfoque de toda la familia de nutrientes. Incluye no sólo alicina, sino también otros compuestos bioactivos (por ejemplo, sustancias solubles en aceite de ajo y cebolla fresca), que existen de forma natural en los vegetales del género Aliáceo y trabajan juntos en diferentes formas para beneficiar a la salud.*
- Tecnología de Entrega Dirigida. La capa entérica aumenta la estabilidad y la absorción del producto, y asegura la formación de alicina activa en los intestinos. ¡Como resultado de ello, Garlic Allium Complex no causa repetición ni aliento a ajo!
- Contiene romero, una hierba potente antioxidante que ayuda a proteger el contenido del comprimido.
- Muy práctico. Proporciona una manera fácil de disfrutar de los beneficios de los vegetales del género Aliáceo sin tener que comer un diente de ajo crudo cada día.
