

LIPOTROPIC ADJUNCT™

Many factors determine the health of your heart and blood vessels, especially a balanced diet low in fat and high in fiber. Sometimes we don't eat the foods that give us the nutrients we need for optimal cardiovascular health. These nutrients include lipotropic factors and B-vitamins. Lipotropic factors help keep lipids (fats) emulsified in blood, so they may be mobilized and utilized throughout the body where needed. B-vitamins help assure proper metabolism of homocysteine. Leading-edge Lipotropic Adjunct™ provides nutrients shown to play essential roles in maintaining the health of the circulatory system.*

NeoLife Scientific
Advisory Board

#3510, 180 Tablets

Why Lipotropic Factors and B-Vitamins?

- **Lipotropic factors** are essential for the production of lipoproteins, which help keep lipids emulsified in the bloodstream.*
- **B-vitamins help assure proper metabolism of homocysteine**, a natural metabolic by-product that can irritate blood vessels if levels are elevated.

Our Solution: Lipotropic Adjunct

- **Concentrated lipotropic factors** (choline and inositol) assist the mobilization and utilization of dietary fats.
- **Contains folic acid, vitamin B₆, and vitamin B₁₂**, nutrients known to lower blood levels of homocysteine, an amino acid that can accumulate to dangerous levels and damage blood vessels.
- **Betaine hydrochloride** helps create an environment conducive to vitamin B₁₂ absorption. Betaine is itself involved in homocysteine metabolism.
- **Citrus bioflavonoids, including hesperidin**, support the health of the circulatory system.*

LIPOTROPIC ADJUNCT™

SUGGESTED USE: 2 to 4 tablets daily.

Supplement Facts

Serving Size: 4 Tablets
Servings Per Container: 45

	Amount Per Serving	% Daily Value
Vitamin B ₆ (as pyridoxine hydrochloride)	8 mg	470%
Folate	1000 mcg DFE (600 mcg folic acid)	250%
Vitamin B ₁₂ (as cyanocobalamin)	100 mcg	4170%
Choline bitartrate	200 mg	†
Inositol	200 mg	†
Betaine hydrochloride	200 mg	†
Lemon bioflavonoids	100 mg	†
Hesperidin	100 mg	†

† Daily Value not established.

OTHER INGREDIENTS: Calcium carbonate, glucose, microcrystalline cellulose, stearic acid, silicon dioxide, magnesium stearate, hydroxypropyl methylcellulose, titanium dioxide, glycerin, sodium starch glycolate, vanillin and carmine.

#1902

Lipotropic factors, choline and inositol help keep lipids (fats) emulsified in the bloodstream and help reduce the buildup of unwanted fat in the liver. Folic acid, B₆ and B₁₂ promote proper metabolism of homocysteine, which supports a healthy antioxidant response to LDL cholesterol, free flowing circulation and overall arterial wall health.*

Betaine hydrochloride works in conjunction with B₁₂, hesperidin and bioflavonoids support overall product effectiveness.

Store in a cool, dry place, away from direct sunlight.

Packaged with safety seal.

NeoLife products use only GMO-free ingredients.
