

100% Wild-Caught Fish Oil

- 1,070 mg of omega-3s per serving
- Supports heart health, joint health, balanced inflammation and more*
- Purity tested and screened for over 200 contaminants

Omega-3 Plus delivers 8 essential omega-3s in a clinically studied, ultra-pure fish oil formula. Each serving supports heart health, joint comfort, and balanced inflammation.* Now with certified sustainable oils, tested for over 200 contaminants for unmatched purity.

- Premium, 100% pure fish oil sourced from anchovies, mackerel, salmon, sardines, and tuna.
- Potency guaranteed. Delivers 1,070 mg of omega-3 fatty acids in each 3 softgel serving.
- Each serving provides the total omega-3 fatty acids equivalent of approximately one serving of fatty fish.
- Screened for over 200 contaminants, including PCBs, pesticides, and toxic heavy metals such as mercury and lead, and meets or exceeds even the most rigorous global safety standards.
- Clinically tested for real results. This standardized ratio of 8 omega-3s was clinically studied and in 8 weeks found to:
 - Improve omega-3 index by 38%*
 - Lower inflammatory index by 68%*
 - Support healthy triglyceride levels*
- Standardized amounts of 8 omega-3s. A 3 softgel serving provides:
 - 460 mg EPA
 - 480 mg DHA
 - 50 mg DPA
 - 80 mg of five other omega-3s
- Proprietary “Molecular Differentiation” Process – an advanced technology that selectively enhances beneficial nutrient molecules while minimizing or removing unwanted compounds, ensuring exceptional potency, purity, and consistency.
- 100% wild-caught fish oil, sustainably sourced and certified by globally recognized entities known for protecting marine environments.

The Power of Omega-3s

Decades of research confirm that omega-3 fatty acids play a crucial role in overall health, benefiting the heart, brain, eyes, skin, joints, and more.* As essential components of cell membranes, omega-3s support cell structure and flexibility, ensuring optimal function.*

The most extensively studied omega-3s, EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid), are well-known for their role in cardiovascular and brain health.* However, research continues to reveal the benefits of other omega-3s, highlighting their importance for comprehensive human nutrition.

The Challenge: Declining Omega-3 Levels in Seafood

Fatty fish—such as mackerel, anchovy, and salmon—are the richest natural sources of omega-3s. However, overfishing and environmental changes have significantly impacted the sustainability of wild fish populations, including salmon and tuna. As a result, not only is the global fish supply dwindling, but the levels of critical omega-3s in these fish are decreasing, making it harder to get enough through diet alone.

Neolife’s Commitment to Sustainability

Neolife is on the forefront of global sustainability. Omega-3 Plus is formulated using oil from 100% sustainably sourced fish, using oils that have been certified by trusted third-party organizations, ensuring purity, potency, and environmental responsibility.

Omega-3 Plus

How Omega-3s Support Your Health

Omega-3 fatty acids have been shown to support:

- Heart and cardiovascular health*
- Normal brain development and cognitive function*
- Healthy blood lipid levels*
- Balanced inflammation*
- Joint comfort and flexibility*
- Eye health*

Did you know? Most adults fall short of the recommended 8 ounces of fatty fish per week. Additionally, some fish should be limited or avoided due to high mercury contamination levels.

Omega-3 supplementation is a proven and effective way to ensure consistent intake of these essential fatty acids, supporting lifelong health.

Suggested Use: 3 softgels daily with meals.

Supplement Facts

Serving Size: 3 Softgels
Servings Per Container: 30

	Amount Per Serving	% Daily Value
Calories	20	
Total Fat	2 g	3%**
Total Omega-3 fatty acids	1070 mg	
EPA (Eicosapentaenoic acid)	460 mg	†
DHA (Docosahexaenoic acid)	480 mg	†
DPA (Docosapentaenoic acid)	50 mg	†
Alpha-linolenic, eicosatetraenoic, eicosatrienoic, heneicosapentaenoic and stearidonic acids.	80 mg	†

OTHER INGREDIENTS: Ultra High Potency Omega-3 (UHP03) fatty acid concentrate, salmon oil, gelatin, glycerin, purified water, mixed tocopherols.

Contains fish (anchovies, mackerel, salmon, sardines, tuna).

#1124

Each serving of Omega-3 Plus provides the total omega-3 fatty acids equivalent of approximately one serving of fatty fish. Research shows omega-3 fatty acids play critical roles in the health and function of the: cardiovascular system; brain, central nervous system and vision; joints; and helps maintain the normal, healthy inflammatory balance of the body.*

Provides 8 members of the family of omega-3 fatty acids naturally part of the human food chain, including EPA and DHA. Neolife's Ultra High Potency Omega-3 fatty acid concentrate, derived by "molecular differentiation", delivers purity and potency to maximize safety, comfort and benefits.

Neolife's pure fish oil is sustainably harvested and tested for over 200 contaminants including PCBs, pesticides and toxic heavy metals.

Store in a cool, dry place, away from direct sunlight.

Packaged with safety seal.

EVERY BATCH TESTED FOR PURITY AND POTENCY

Aceite de Pescado 100% Capturado en la Naturaleza

- 1,070 mg de omega-3 por porción
- Apoya la salud del corazón, las articulaciones, el equilibrio de la inflamación y más*
- Probado para pureza y analizado para más de 200 contaminantes

#3504 - 90 Softgels

Omega-3 Plus ofrece 8 omega-3 esenciales en una fórmula de aceite de pescado ultrapurificado y clínicamente estudiado. Cada porción apoya la salud del corazón, la comodidad de las articulaciones y el equilibrio de la inflamación.* Ahora con aceites certificados como sostenibles, probados para más de 200 contaminantes para una pureza inigualable.

- Aceite de pescado premium 100% puro, obtenido de anchoas, caballa, salmón, sardinas y atún.
- Potencia garantizada. Proporciona 1,070 mg de ácidos grasos omega-3 en cada porción de 3 cápsulas blandas.
- Cada porción aporta el equivalente en ácidos grasos omega-3 a aproximadamente una porción de pescado graso.
- Analizado para más de 200 contaminantes, incluidos PCB, pesticidas y metales pesados tóxicos como mercurio y plomo, cumpliendo o superando los estándares de seguridad global más estrictos.
- Clínicamente probado para obtener resultados reales. Esta proporción estandarizada de 8 omega-3 fue clínicamente estudiada y, en 8 semanas, se encontró que:
 - Mejora el índice de omega-3 en un 38%*
 - Reduce el índice de inflamación en un 68%*
 - Apoya niveles saludables de triglicéridos*
- Cantidades estandarizadas de 8 omega-3. Una porción de 3 cápsulas blandas proporciona:
 - 460 mg de EPA
 - 480 mg de DHA
 - 50 mg de DPA
 - 80 mg de otros cinco omega-3
- Proceso patentado de "Diferenciación Molecular": una tecnología avanzada que mejora selectivamente las moléculas de nutrientes beneficiosos mientras minimiza o elimina compuestos no deseados, garantizando una potencia, pureza y consistencia excepcionales.

- Aceite de pescado 100% capturado en la naturaleza, obtenido de manera sostenible y certificado por entidades de reconocimiento global dedicadas a la protección de los ecosistemas marinos.

El Poder de los Omega-3

Décadas de investigación confirman que los ácidos grasos omega-3 desempeñan un papel crucial en la salud general, beneficiando el corazón, el cerebro, los ojos, la piel, las articulaciones y más.* Como componentes esenciales de las membranas celulares, los omega-3 apoyan la estructura y flexibilidad celular, asegurando un funcionamiento óptimo.*

Los omega-3 más estudiados, EPA (ácido eicosapentaenoico) y DHA (ácido docosahexaenoico), son ampliamente reconocidos por su papel en la salud cardiovascular y cerebral.* Sin embargo, la investigación sigue revelando los beneficios de otros omega-3, destacando su importancia para una nutrición humana completa.

El Desafío: La Disminución de los Niveles de Omega-3 en los Mariscos

Los pescados grasos, como la caballa, la anchoa y el salmón, son las fuentes naturales más ricas en omega-3. Sin embargo, la sobrepesca y los cambios ambientales han afectado significativamente la sostenibilidad de las poblaciones de peces silvestres, incluidos el salmón y el atún. Como resultado, no solo está disminuyendo el suministro global de pescado, sino que también los niveles de omega-3 esenciales en estos peces están reduciéndose, lo que dificulta obtener la cantidad necesaria solo a través de la alimentación.

Omega-3 Plus

El Compromiso de NeoLife con la Sostenibilidad

NeoLife está a la vanguardia de la sostenibilidad global. Omega-3 Plus está formulado con aceite de pescado 100% obtenido de manera sostenible, utilizando aceites certificados por organizaciones de terceros de confianza, garantizando pureza, potencia y responsabilidad ambiental.

Cómo los Omega-3 Apoyan tu Salud

Se ha demostrado que los ácidos grasos omega-3 apoyan:

- Salud del corazón y cardiovascular*
- Desarrollo cerebral normal y función cognitiva*
- Niveles saludables de lípidos en la sangre*
- Inflamación equilibrada*
- Comodidad y flexibilidad en las articulaciones*
- Salud ocular*

¿Sabías que? La mayoría de los adultos no alcanzan las 8 onzas recomendadas de pescado graso por semana. Además, algunos pescados deben ser limitados o evitados debido a los altos niveles de contaminación por mercurio.

La suplementación con omega-3 es una forma probada y efectiva de garantizar una ingesta constante de estos ácidos grasos esenciales, apoyando la salud a lo largo de toda la vida.
