

# BREAKFAST SOLUTION

Leading global health authorities like the World Health Organization and American Heart Association agree that the key to preventing disease and promoting health is weight management, physical activity and eating a nutrient-rich diet that includes whole grains, fruits & vegetables, and fish. However, the quality of the Standard American Diet (S.A.D.), often referred to as the Western diet, has dramatically declined in recent years. Studies have shown that poor diet is strongly associated with poor health. Along with a sedentary lifestyle, this has played a role in leading to the high incidence of malnutrition, weight gain, and chronic diseases. Over 70% of adults in the U.S. were overweight or obese in 2016, according to the Centers for Disease Control.

## Support a Healthy Lifestyle with Wholesome, Balanced Nutrition

- Protein is a key component of every cell in our body and essential for cellular nutrition and energy. Studies show that higher protein diets help suppress hunger, increase satiety and burn fat, thereby promoting weight loss and making it easier to stay on a weight loss program.
- Wholesome, balanced nutrition and an active lifestyle can also support weight management success.
- Getting all of our essential vitamins and minerals is vital to the proper functioning of our immune and nervous systems, preventing illnesses and diseases, and keeping us healthy and radiant. The right balance of nutrients, including whole grains, fruits & vegetables, and omega-3s, will keep your body functioning optimally and help support healthy weight management.
- Even those with good intentions to eat a healthy diet face challenges. Busy lifestyles, eating on-the-run, and the prevalence of processed foods all contribute towards nutritional gaps that would benefit from nutritional supplements.

## Our Solution: NeoLifeShake/Vegan Protein and Pro Vitality Combined in a Convenient Pack

- A convenient 30-day supply of NeoLifeShake/Vegan Protein and Pro Vitality to help maximize weight management results. It contains two NeoLifeShake pouches or boxes of packets (or two Vegan Protein pouches) and one 30-serving box of Pro Vitality. With this program, you'll replace two meals a day with NeoLifeShake or Vegan Protein, and save money while getting delicious, high quality protein.

- NeoLifeShake is designed to fuel your body with 18g of complete protein, over 25 vitamins and minerals, and 5g of heart healthy fiber. Exclusive Glycemic Response Control Technology supports normal blood sugar levels, sustained energy, and maximum fat burning. For maximum healthy weight loss, replace two meals a day.\*
- Vegan Protein is delicious drinkable plant-based nutrition crafted with the highest quality sources of plant-based protein, protective antioxidants, and nutrient-dense ingredients for optimal nutrition.\*
- Pro Vitality offers a foundation for good nutrition at the cellular level to promote lifelong health and vitality. Each box contains the essential phytolipids and phytosterols equivalent to over 12 lbs of whole grains, the carotenoid equivalent of 80 lbs of raw fruits & vegetables, and 10 (3 oz) servings of pure omega-3 rich fish, as well as a full spectrum of essential vitamins and minerals.\*

## NeoLifeShake

- Based on our clinically proven **Glycemic Response Control Technology** to help minimize fat storage and promote fat burning\*
- Clinically proven for weight loss & body fat reduction, body size reduction, BMI (body mass index) reduction, and "cardio-protective" benefits†
- Rich source of protein with 18g per serving—36% of the Daily Value
- **Biologically Complete Protein Blend** – Scientifically advanced protein blend from soy, milk, caseinates, and whey for superior amino acid profile, with muscle-retaining branched chain amino acids, including leucine\*
- Rich source of fiber with 5g per serving—20% of the Daily Value

\*Results are not typical. In an open label clinical study participants lost an average of 5.27 lbs. over a 12 week period

# BREAKFAST SOLUTION
