Garlic Allium COMPLEX

Whole food components from across the allium vegetable family provide allicin equivalent to a full clove of garlic, S-allyl cysteine and a complete lipid profile of garlic and onion oleoresins.

Scientific research has begun to validate the many benefits of garlic and other allium plants and to identify active components. Garlic Allium Complex contains pure garlic of the highest allicin yield and exclusive 10x extracts of garlic and onion, plus GNLD's exclusive Targeted Delivery Technology protects sensitive compounds and ensures maximum bioavailability in the intestinal tract.
