**1-PAGE MISSION PLANNER**

**MISSION:**

Your project name, the problem you are solving, or next stage you are trying to reach.

**DATE:**

How much time do you have to cut the green wire?

**TOP 3:**

Three big things that must get done to move the mission forward.

If you are unable to secure one or more of the tools that you need, start thinking of “next best” solutions—put on your MacGuyver hat and get creative. You need this gear, if you don’t it shouldn’t be on the list.

**OBSTACLES:**

What is standing in your way from accomplishing your mission? These are the villains—the emotional blocks, internal critic, perceived limitations, The Man.
