Graduate Record Examinations (GRE)

Target 330+

Type: Computer-based or paper-based standardized test.

Developer / administrator: Educational Testing Service

Languages: English

Fee: US\$ 205 (Rs. 13000 approx.)

Registering website: www.ets.org/gre

Offered: you can take the test once every 21 days, up to five times within any continuous rolling 12-month period (365 days).

Duration: 3 hours and 45 minutes

Score validity: 5 Years

Purpose: Admissions to masters and doctoral degree programs in various universities.

Referred books: GRE official guide

Structure: The structure of the computer-based GRE General Test consists of six sections. The first section is always the analytical writing section. The next five sections consist of two verbal reasoning sections, two quantitative reasoning sections, and either an experimental or research section. These five sections may occur in any order

The entire testing procedure lasts about 3 hours 45 minutes. One-minute breaks are offered after each section and a 10-minute break after the third section.

Verbal section: The computer-based verbal sections assess **reading comprehension, critical reasoning, and vocabulary usage**. In a typical examination, each verbal section consists of **20 questions to be completed in 30 minutes**. Each verbal section consists of about **6 text completion, 4 sentence equivalence, and 10 critical reading questions**.

Quantitative section: The computer-based quantitative sections assess basic high school level **mathematical knowledge and reasoning skills**. In a typical examination, each quantitative section consists of **20 questions to be completed in 35 minutes**. Each quantitative section consists of about **8 quantitative comparisons, 9 problem solving items, and 3 data interpretation questions**.

Analytical writing section: The analytical writing section consists of two different essays.

Issue Task: The test taker is given 30 minutes to write an essay about a selected topic.

Argument task: The test taker will be given an argument (i.e. a series of facts and considerations leading to a conclusion) and will be asked to write an essay that critiques the argument. The time allotted for this essay is 30 minutes.

Experimental section: The experimental section, which can be either verbal or quantitative. Although the experimental section does **not count towards the test-taker's score**, it is unidentified and appears identical to the scored sections. Because test takers have no definite way of knowing which section is experimental, it is typically advised that test takers try their best and be focused on every section.

Graduate Record Examinations (GRE)

Target 330+

GRE Score Range

Section	Minimum	Maximum
Verbal	130	170
Quantitative	130	170
Combined	260	340
