

ADDENDUM III

EXCERPTS FROM THE COUNTYWIDE PLAN REGARDING TRANSPORTATION

BUILT ENVIRONMENT TRANSPORTATION

Pg. 3.9-13, BUILT ENVIRONMENT, TRANSPORTATION

“TR-1.e Uphold Vehicle Level of Service Standards. Uphold peak-hour vehicle Level of Service standard LOS D or better for urban and suburban arterials and LOS E or better for freeways and rural expressways...

New development shall be restricted to the lowest end of the applicable residential density/commercial floor area ratio range where the LOS standards will be exceeded at any intersection or road segment or worsened on any grandfathered segment.”

Page 3.9-18

TR-1.r Reduce Congestion on Grandfathered Road Segments. Encourage the Transportation Authority of Marin or other responsible agency to prepare plans to reduce congestion on grandfathered road segments that do not meet current LOS standards. These plans should rely on programs and policies other than physical infrastructure improvements to the extent feasible.
