

# MCE out-browning PG&E

MCE advertises its energy is cleanest available while failing to publicly disclose it is loaded with brown power (fossil-fired)

Source: 2011–2016 Power Source Disclosure reports, Schedule 1 (submitted to California Energy Commission), Annual RPS Compliance Report (submitted to CPUC), and PG&E Currents. “Brown power” comprised of coal, gas, diesel, petroleum coke, and “Unspecified power” (aka generic purchase or system power); relabeled PCC2 and PCC3 energy volumes counted as delivered-to-consumers “Unspecified sources.” MCE = Marin Clean Energy. PG&E = Pacific Gas and Electric.
