CAREER OPPORTUNITIES – Fort Collins, CO

Software Engineer (Ref #1944-C)

Toyon is seeking individuals capable of developing object-oriented software using the C++ programming language. Experience writing software for image and/or signal processing applications and/or developing software for graphics processing units (GPUs) is desired, but not required. Experience working in a collaborative environment with configuration management and version control tools is a plus. Strong math skills which provide the ability to understand advanced image and signal processing algorithms is also a plus.

Candidates with a Bachelor's degree or higher in engineering, computer science, or a physical science are encouraged to apply.

U.S. Citizenship is Required. Ability to qualify for a US Department of Defense security clearance required.

Please e-mail resume to:
