CAREER OPPORTUNITIES – Fort Collins, CO

Deep Learning Algorithm Developer (Ref #1948-C)

Toyon has openings for deep learning researchers and algorithm developers to solve challenging problems for image, video, and other signal processing applications. We apply deep learning in remote sensing, video-based tracking, low-shot classification, 3D reconstruction, and other application areas. Candidates should have a strong background in engineering, computer science, physics, and/or mathematics. Experience with TensorFlow, PyTorch, or other deep learning frameworks is desired. A B.S. degree is required with advanced degrees desired.

U.S. Citizenship is Required. Ability to qualify for a US Department of Defense security clearance required.
