CAREER OPPORTUNITIES - Santa Barbara, CA

Antenna/RF Engineer, Entry Level (Ref #1623-E)

Toyon Research Corporation is a nationally recognized, employee-owned, small business engaged in research and development of systems to support our national defense. We have an immediate opening in our Santa Barbara headquarters for an RF Engineer with experience in both the theory and practice of antennas, RF, and microwave circuits. Join a dynamic team of creative engineers working on state-of-the-art antenna problems for radar, communications, navigation and guidance, and embedded sensors across the entire electromagnetic spectrum.

The position requires a minimum of a Bachelors or Masters Degree in Electrical Engineering, Physics or related discipline. Excellent verbal/written skills are a must; laboratory experience is a strong plus. Familiarity with MATLAB, circuit layout tools, or SolidWorks is also highly desirable. Systems-level experience is also a plus.

U.S. Citizenship is Required. Ability to qualify for a US Department of Defense security clearance required.
