CAREER OPPORTUNITIES - Santa Barbara, CA

Security Information Systems Specialist (Ref #1920-I)

Toyon is seeking a Security Information Systems Specialist with 3+ years of experience for our fast paced Department of Defense environment. The ideal applicant would have experience working on classified computing systems under the Joint Special Access Program Implementation Guide (JSIG), and DoD Directive 5205.07 Manuals (Volumes 1-4), the ICD standards, NIST SP 800-53, and the National Industrial Security Program Operating Manual (NISPOM).

At Toyon, we pride ourselves on functioning as a cooperative and professional security team based on trust. The successful candidate will continually work to develop positive and productive relationships as they support all aspects of the security program and ensure business needs are met. Excellent interpersonal skills are required both in person and via telephone. Resourcefulness, good work ethic, mature judgment, and the ability to discreetly handle sensitive information are essential. Team members must have the ability to react quickly and provide authoritative guidance to employees on matters related to security.

Functions include:

- Technical support of classified system hardware and software.
- Interpretation of Government Regulations relating to IA management of computer networks and standalone information systems.
- All aspects of audits, ensuring systems are being operated securely and computer security policies and procedures are implemented.
- Contributing to and updating Risk Managed Framework (RMF) materials.
- Maintaining controls are described in SCTM documents.
- Monitoring and resolving Plan of Action and Milestones (POA&M's) to mitigate system vulnerabilities on assigned Information Systems.

Qualifications:

- Minimum of 3 years Security and/or Information Technology experience.
- Experience with administering enterprise class computing, networking, and storage hardware.
- Experience with DoD security practices.

U.S. Citizenship Required. This position requires a final TOP SECRET clearance with a favorable SSBI within the past five years. Candidate must be SAP and SCI program eligible.
