CAREER OPPORTUNITIES - Santa Barbara, CA

Electronic/Antenna Manufacturing Technician (Ref #1927-E)

Job Duties and Tasks:

1. Prepare and place purchase orders.
2. Receive and inspect incoming parts.
3. Prepare receiving/inspection reports.
4. Perform First Article Inspections and create FAI reports.
5. Prepare and assemble materials into subassemblies; build product subassemblies or final assemblies.
6. Perform processes using solder, epoxies, fasteners, etc.
7. Test products or subassemblies for functionality or quality, including:
 - a. RF and microwave measurements using network analyzers and other RF equipment.
 - b. Dimensional and mass measurements.
8. Troubleshoot problems with equipment, devices, or products.
9. Monitor manufacturing processes and provide feedback and improvement recommendations to engineers.
10. Set up and operate production equipment in accordance with current good manufacturing practices and Toyon operating procedures.
11. Assist engineers in developing, building, or testing prototypes or new products, processes, or procedures.
12. Build packaging for finished products.
13. Assist in the preparation of final "build documents" and final inspection reports prior to delivery.

EXPERIENCE AND TRAINING: Manufacturing production training equivalent to AA degree in electronics or 2 years technical trade school or military technical school and 2-4 years of directly applicable work experience in production manufacturing. Advanced training in soldering is desirable.

U.S. Citizenship Required
