CAREER OPPORTUNITIES - Santa Barbara, CA

CAD Designer, Part Time (Ref #2018-E)

Toyon is seeking a part time CAD Designer to design and execute layouts of complex products and equipment of an electrical or mechanical nature. Complexity of assignments requires the exercise of considerable initiative, latitude, independent judgment and the ability to design independently with only general technical direction. The CAD Designer will perform original design work after receiving the design goal or problem, general method of processing and engineering advice on related theoretical aspects to be considered in the design. Design work requires individual creativity, application of expert drafting techniques and thorough knowledge of practical fabrication techniques. This position requires the solution of routine engineering problems including simple stress analysis, heat transfer, vibration, acoustic isolation, strength/weight efficiency, availability of materials, ease of fabrication, interchangeability and problems of related complexity.

Skills and Experience: 15-20 years of progressively more complex experience including 6 years of advanced design concepts and applications. Proficient in use of all applicable CAD equipment. Knowledgeable of all applicable MIL-SPEC/STD's. Experience with SolidWorks is desired.

U.S. Citizenship Required. Ability to qualify for a US Department of Defense security clearance required.
