CAREER OPPORTUNITIES – Sterling, VA

Algorithm Developer (Ref #1749-C)

Toyon is seeking individuals capable of developing advanced algorithms for image, video, and other signal processing applications. We are looking for algorithm developers with experience and/or an educational background in: signal processing, deep learning, estimation theory, pattern recognition, 3D reconstruction, video enhancement, and/or data fusion. Candidates should have a strong background in engineering, computer science, physics, and/or mathematics. A B.S. degree is required with advanced degrees desired. Experience with software development using the C++ computer language is desired.

U.S. Citizenship is Required. Ability to qualify for a US Department of Defense security clearance required.
