

At TPRS Books, we believe that a great way to deliver Comprehensible Input to learners is through the telling and asking of stories.

One great way to encourage use of the language in class is through rejoinders. Rejoinders are idiomatic or Native expressions that are used to react, interject, or to keep a conversation going.

Thank you for downloading the Rejoinders posters!

We hope you enjoy these posters as you communicate with your students in your classes!

Sincerely,
