

Fieldwork Toolkit Webinar Series

Presented by the UC Field Research Safety Center of Excellence

Speaker: Chris Lay

Administrative Director and Field Instructor, Kenneth Norris Center for Natural History, UC Santa Cruz

Poor communication is often an overlooked contributor to accidents in field settings. For this reason, it's critical for field leaders to focus on creating a group environment with clear expectations, good rapport between leaders and participants, tools for managing conflict, and open lines of communication. When done successfully, safe learning/working environments not only reduce the likelihood of accidents but also often lead to more enjoyable group experiences. Join us for a discussion of best practices.

Creating a Positive Safe Learning Environment in Field Settings

Wednesday

April 22, 2020

11:00am – 12:00pm
