

RESERVE[®]

EMPOWER FROM WITHIN

THE SYNERGY OF

Superfruits & Resveratrol

The Power of Nature and Science

Everyday factors — from the food we eat to the air we breathe — create oxidative stress. These free radicals can impact how we age and feel over time.

That’s why antioxidants are essential: they’re nature’s defense system, helping neutralize free radicals and support our body’s natural balance.

Reserve® is a unique **dietary supplement** infused with **resveratrol** and a blend of **five powerful superfruits** — blueberry, dark cherry, açai, grape, and pomegranate. This botanical combination helps combat oxidative stress and promotes vitality from within.*

Individual results may vary. The statements associated with this product and its ingredients have not been evaluated by the FDA or any regulatory authority. Velovita® Products are not intended to diagnose, treat, cure, or prevent any medical condition. Velovita® Products are not weight loss products, and individual results for fat loss will vary depending on the diet and exercise. Consult with your doctor or other qualified healthcare providers before undertaking a new treatment, diet, fitness, or exercise program.

Delicious & easy to take

Reserve® supports daily wellness with heart-friendly polyphenols that aid circulation and overall health.*

Why Choose Reserve®?

- ✓ Delicious and easy-to-take supplement for daily wellness.*
- ✓ Convenient single-serving packets for active lifestyles.
- ✓ **Powerful antioxidant support** that may help protect your cells from oxidative stress.*
- ✓ Backed by scientific validation and high-quality ingredients.

Reserve® has been evaluated using the **CAP-e (Cell-based Antioxidant Protection in Erythrocyte) test**, a laboratory method that measures whether antioxidants in a product can enter and help protect live cells from oxidative stress.* Results showed that **Reserve®** provided measurable antioxidant protection in both water- and

fat-soluble environments, demonstrating comprehensive absorption pathways.* In addition, the individual ingredients — including resveratrol and superfruits such as açai, blueberry, and pomegranate — have been widely studied for their antioxidant activity and potential to support overall wellness.*

Velovita® Products are not weight loss products, and individual results for fat loss will vary depending on the diet and exercise. Consult with your doctor or other qualified healthcare providers before undertaking a new treatment, diet, fitness, or exercise program.

Superfruits: More Than Nutrition

Each fruit in **Reserve**® was carefully chosen for its antioxidant profile, nutritional value, and taste.

Açaí Berry – Supports overall wellness with natural antioxidants.*

Pomegranate – Contains polyphenols that contribute to antioxidant activity.*

Blueberry – Provides compounds that support brain and cellular health.*

Dark Cherry – Helps reduce oxidative stress and supports recovery.*

Concord Grape – Source of flavonoids that promote circulation and vitality.*

RESVERATROL: The Heart-Friendly Polyphenol

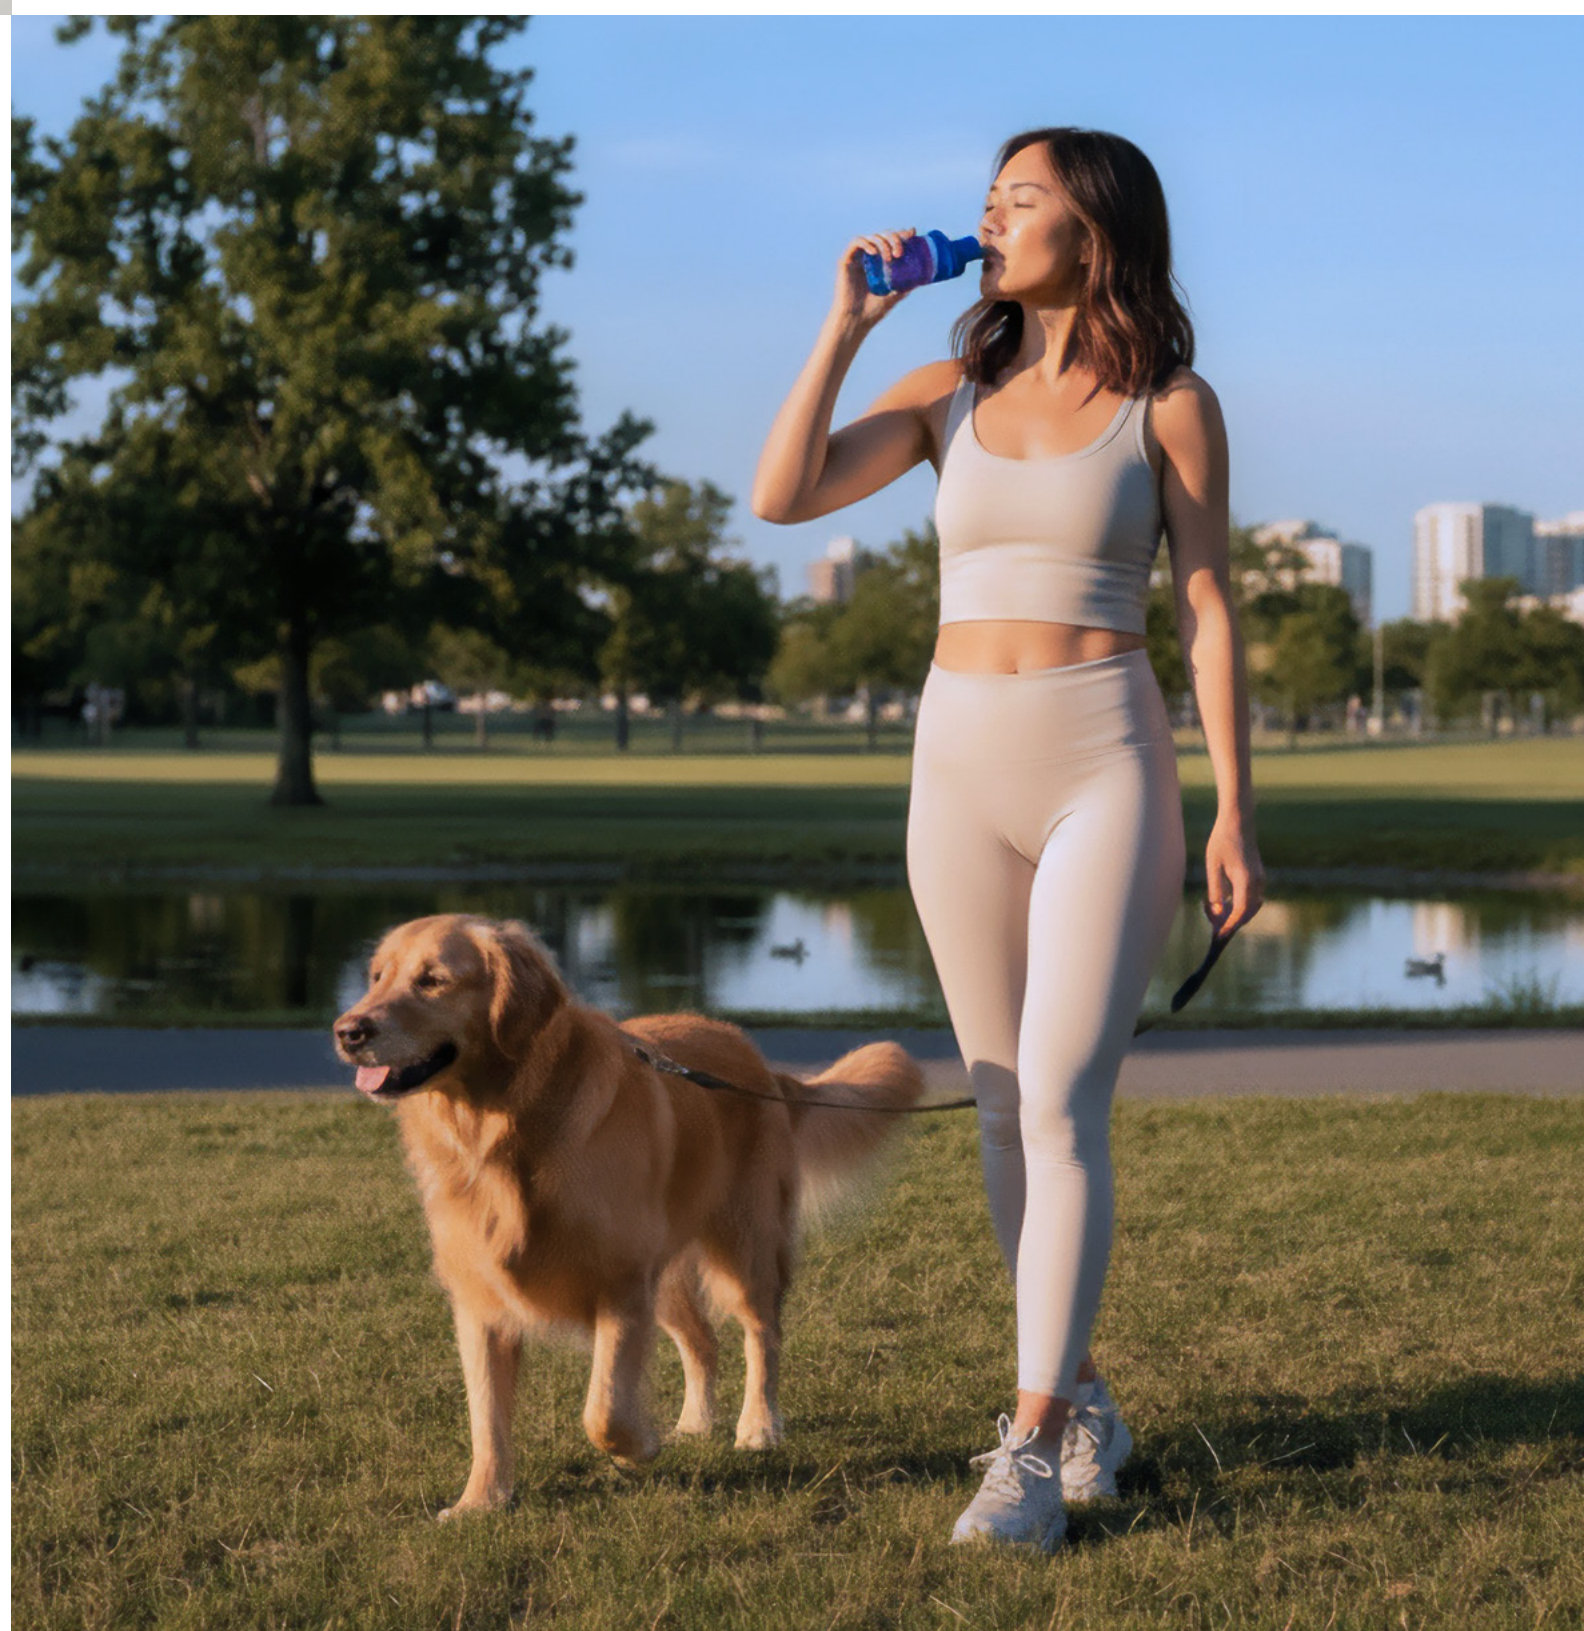

Resveratrol is a plant-based compound studied for decades and often linked to the “**French Paradox.**” Found naturally in grapes, berries, peanuts, and cocoa, it:

- **Supports** cardiovascular health.‡
- **Helps** provide antioxidant protection.‡
- **Promotes** healthy aging at the cellular level.‡

The Power of Synergy

What makes **Reserve**® unique is the way superfruits and resveratrol work together:

- Broader **antioxidant protection** across multiple pathways.‡
- Validated absorption and **cellular defense** (CAP-e testing).‡
- Comprehensive support for heart, brain, and **overall wellness.**‡
