Angelo Mangiarotti

Milan, Italy

Angelo Mangiarotti was born in Milan on the 26th of February, 1921. He took his degree in architecture in 1948 from the Politechnical University.

In 1953-54 he was visiting professor of the Illinois Institute of Technology in Chicago, and during this period he met Frank Lloyd Wright, Walter Gropius, Mies van der Rohe and Konrad Wachsmann. In 1989, he opens the Mangiarotti & Associates Office in Tokyo.

He was highly regarded as an architect and projected fantastic and beautiful buildings, and when he began to design lights it was with a very strong sense of structure that was visible through his extensive activity within lighting design.

karakter[®]

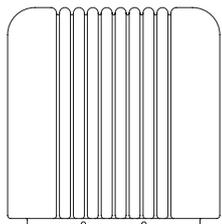

The definition of Karakter.

Karakter Copenhagen is a Danish design brand specializing in the production of furniture, interior objects, lighting and gallery pieces.

We seek out designs that are out of the ordinary—from designers who have already written the history of design to those who are aspiring to write the future.

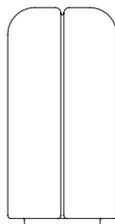

All the designers presented by Karakter Copenhagen are handpicked for their ideas and creativity and shared by all of them is an inspiring level of productivity and an uncompromising take on their work. Something that is also fundamental for Karakter and our design choices.

—CEO & Partner, Christian Elving,
“The idea in itself should be uncompromising. Design should originate from a genuine desire to create, or to solve a problem—not a desire to sell.”
