Subject: OPPOSE Potential Legislation to Erode Environmental Oversight and Regulation of Oakland Howard Terminal Project

Friends – I am writing to share with you the attached letter which we have sent today to the offices of Senators Skinner and Wiener, and Assemblymembers Ting, Chiu, Bonta and Wicks.

The letter is signed by a diverse coalition of environmental, business and labor organizations concerned about potential legislation to circumvent the San Francisco Bay Conservation and Development Commission (BCDC) review and approval processes to fast-track the Oakland A's' stadium project at Howard Terminal.

Reducing the environmental oversight of BCDC, State Lands Commission or other regulatory bodies will not only weaken environmental safeguards for this project, but also set a dangerous precedent for future developments.

Please see the attached letter further highlighting our concerns. We would be pleased to discuss this matter with you at your convenience.

Best wishes, David
