Attachments: 02-22-2019 A's partner with WOEIP.docx

Darlene,

I hope all is well with you, wanted to ping you with a release that is coming out today in relation to our MOU with West Oakland Environmental Indicators Project. We are ramping up our critical community partnerships and have also stated in the release our intent to work with the city of our Race and Equity analysis.

Let me know if you are making progress internally on the position and how we can help move things a long to get a position posted hopefully by next month if possible?
