**Subject:** Rail safety in JLS  
**Attachments:** Howard Terminal Railroad Corridor and Grade Crossing Improvements 5.31.19.pdf

Hi Rob,

As a follow-up to our meeting of July 1, I am attaching herewith a copy of the May 31<sup>st</sup> “Oakland A’s Howard Terminal Project Railroad Corridor and Grade Crossing Improvements” report prepared by RSE, Inc. on behalf of the Oakland Athletics. Please note that this document is in **DRAFT** format pending further City review and comment, and many elements may change before our staff considers this appropriate for broader public dissemination. That said, given your “vision zero” focus and deep expertise in this area, we could greatly benefit from your review and comment as well, particularly as pertains to Appendix A, Proposed At-Grade Crossings & Fencing Improvements, Market Street to Broadway. Specifically, how do the A’s proposed improvements align (or not) with Capitol Corridor’s desired improvements/best practices to maximize safety at existing at-grade crossings throughout Jack London Square? If you’re willing to review, we’d love to set a follow-up meeting in 1 – 2 weeks’ time to discuss your comments and suggestions. Please note that, in parallel, the City continues pushing forward on review of grade-separated crossing options for both vehicles (at Market Street) and bikes/peds (at Clay, Jefferson and adding Washington), in addition to other roadway changes, so some of the information in the report (before the Appendices) and in Appendices C – F will likely change. Finally, please note that all of our transportation reviews are proceeding under the assumption that there will be no gondola (i.e., the improvements must be in place for the project to function in the absence of a gondola).

Don’t hesitate to call with any questions/clarifications.

With our thanks,

**Molly Maybrun**
