Subject: Meeting on Thursday

Hi Robert, Mike and John,

I wanted to circle around on the meeting on Thursday. My intent for this meeting is to understand how AC Transit seeks to be involved in the A's Howard Terminal project, not to focus on the Broadway Transit Lanes (which is one part of the project from 11th to Embarcadero, but not the goal of the discussion). Following the BART/AC ILC meeting, we would like clarity from AC Transit on your service changes, operational needs, infrastructure needs, and ticketing preferences so we can align/be on the same page, and be most effective in ensuring that the project enhances transit for Oaklanders as we review the project and publish a CEQA document.

I understand that you might be under the impression that our intent was to discuss Broadway transit only lanes. While this is a great project, I'd like to parse this out so we're focusing on the discussion above as we're running short on time with A's Howard Terminal. We can have a separate meeting on the Broadway transit only lanes as needed/appropriate.

Please feel free to call/text if you want to discuss further. My cell is Redacted

Thanks,
Nicole
