Pete, thank you very much. I'll familiarize myself with the form and we can discuss once the scope is approved.

Best,
Noah

Noah-

Here is the official form for the request for Environmental Review. We handle the scope of work under the major pre-application that you have already filed and paid fees for. The ER form just needs to come in with the associated fees (28% of consultant fees) prior to staff reviewing any administrative drafts from the consultant. Usually the request is filed after the scope of work is approved under the pre-application and the consultant is getting started on the work. We can discuss when this should occur based upon the schedule that ESA sets out.

Subject: Application for Environmental Review

Hi Pete, I believe we need to submit a formal application for environmental review, is that correct? If so, would you please advise as to the timing and substance of that application? I looked online, but could not track down any information. Feel free to give me a call if it is easier to discuss over the phone than by email.

Thanks,
Noah
