

Comp Laude® Award: Vendor/Service Provider

Quality Living, Inc (QLI)

QLI has become one of the nation's premier post-hospital centers for brain and spinal cord injury rehabilitation by embracing the concept that great rehabilitation is more than just the science of physical recovery – it is the art of rebuilding a life.

"We look at this process as a partnership," said Steve Kerschke, Director of Marketing. "We pride ourselves on being open and transparent and not letting things get brushed under the rug."

QLI's pain program helps people taper off dangerous medications, increase their function and resiliency, find the best individualized method for true management of pain, and regain their lives. They adhere to best practices for BioPsychoSocial interdisciplinary care and have the unique advantage of a sprawling campus that enables them to focus on activity in real world settings (kayak, bike riding, grocery shopping, etc.)

The combination of QLI's proprietary Tri-Dimensional Rehabilitation® program and the unparalleled quality of their staff and culture make QLI's program powerfully effective. Through use of extensive resources and expertise, they help their clients reach individual goals as they work tirelessly to restore purpose and pleasure to a life that has been devastated by a catastrophic event.

"We're happy to serve the injured workers and rebuild their lives along the way," said Kerschke.
