10% CALCIUM SOLUTION

GUARANTEED ANALYSIS
Calcium (Ca) ....................... 10%
Derived from Calcium Acetate
Weight per gallon 12.2 lbs @ 68°F
pH 2.0

GENERAL INFORMATION
10% Calcium is formulated for foliar and soil applications. This product has a low pH, so do not add any acidifying agent or buffering agent to the spray solution. To reduce risk of phytotoxicity, use a non-penetrating anionic surfactant, such as PHT BINDER. It is recommended that 10 % Calcium be applied as a foliar spray to correct Calcium deficiencies. Do not apply to plants suffering from a lack of water or heat stress. Do not apply in combination with phenoxytype herbicides, copper or zinc fungicides or any material that is adversely affected by low pH. This product is not recommended on field grown or greenhouse ornamentals or flowers. Rates of application will vary depending upon the severity of the deficiency climate, soil conditions, and method of application. Consult your State Agricultural Experiment Station or Extension Specialist for advice in selecting treatments from this label to best fit local conditions.

HOW TO APPLY
FOLIAR APPLICATION: Apply the recommended amount in sufficient water to obtain thorough coverage.
For aerial applications, use 1 quart per 5 gallons of water.
For dilute application, use 2 quarts in at least 20 gallons of water, or 4 quarts in at least 40 gallons of water.
Do not apply in an emulsifiable concentrate.

RECOMMENDATIONS FOR USE
FIELD AND VEGETABLE CROPS: Apply 1 to 2 quarts per acre. Start applications at 10-12 true leaf stage. Repeat as needed at 14 day intervals.
TREES AND VINES: Apply 1 to 4 quarts per acre. Start applications after fruit set. Repeat as needed at 14 day intervals.
Do not apply to golden delicious apples during drying conditions.
SOIL APPLICATION: Use 4 to 8 quarts per acre as a sidedress or preplant.

NET CONTENTS 5 gallons (18.9 L)
Lot No. ___________

CAUTION
